## GERMAN BRAVERY COMMANDS WHOLE-HEARTED ADMIRATION OF BRITISH OFFICIAL WITNESS

### VICTORIES OF GERMANS IN RUSSIA

Have Resulted In Giving Them Important Strategic Positions

BUT BERLIN CAUTIONS AGAINST OVERESTIMATING THEM

THE PEOPLE MUST WAIT

Until It is Definitely Known Whether the Czar's Army Has Been Stopped, Or Made to Retreat—Russian Losses Reported to Exceed Whole Corps.

(ASSOCIATED PRESS TELEGRAM) Berlin, Nov. 17.—(By wireless)—Whether the latest German victories in the east have stopped the Russian advance cannot yet be foretold, but, German military officials say, they undoubtedly have resulted in giving the Germans an excellent strategic position and at the same time in increasing the difficulties of the enemy's situation.

The Russians near Solda, according to reports from Russian army headquarters, were driven past Lipno to Plock, and the Russian army defeated by General von Hindenburg at Wloclawek, was forced southward over Kutno instead of back upon the line of its advance. The Vistula river is now between the two Russian forces and it is pointed out in military circles that the river is likely to prove a great barrier in case of further Russian defeats.

In itself, the German authorities say, the victory must not be overestimated and that the people should wait until it is known whether the Russians have been made to retreat or even brought to a standstill.

The Russian losses including prisoners, are reported to have exceeded a whole army corps, but the German officials say that it must not be forgotten that the Russians are operating in great force.

A report received in Berlin from Vienna, that actions took place at different points along the front in Galicia appears to show that the Teutonic allied armies there have now made the dispositions of their forces and are ready to resume the offensive.

An official announcement made in Vienna reports that the Serbian positions at Valievo and Obrenovats have been taken by the Austrians, thereby removing another obstacle to the Austrian march on Belgrade.

From Constantinople comes reports of a Turkish attack on a British force at Fao, a port of Asiatic Turkey in the Persian Gulf, in which a thousand English are said to have fallen.

The situation in the western arena of the war seems almost to have been forgotten in Berlin in view of the German victories in the east and because of the lack of fighting in Flanders owing to the bad weather prevailing there.

### "The Guard Dies But Never Surrenders," Was the Heroic Cry of Allies at Dixmude

(ASSOCIATED PRESS TELEGRAM) Paris, Nov. 17.—The Germans, in the opinion of officers at the front, are beginning to show signs of the terrific strain they have undergone for a month past in Flanders and these officers expect that General Joffre's plan of holding the line and permitting the German host to wear itself out in vain but costly assaults will soon bear fruit.

The staff officer, writing from the battle, even goes so far as to predict that within another month the allies will be in a position to drive the enemy from French soil. The writer, however, admits that he is by nature an optimist.

GERMAN PRESS IS UNANIMOUS IN ITS TRIBUTE TO ROBERTS.  
Berlin, via Amsterdam and London, Nov. 17.—The Lokal Anzeiger in an editorial on the death of Lord Roberts says: "On the occasion of the death of Lord Roberts the whole German press expresses itself alike, appreciatively, about the fallen enemy. Even in war moments occur when the fighter salutes the enemy with the sabre instead of striking him with it. Such a moment has arisen with the departure of Roberts." \*\*\*\*\*

## Allies' Line Refuses to Yield But Germans Do Not Abandon Their Attempt to Reach Coast

German Retreat In the Eastern Arena of War Is Looked Upon In Some Quarters As a Master-piece of Strategy, Comparable to "Stonewall Jackson's" or Gen. Joffre's In Its Conception

PRINCE OF WALES HAS GONE TO BATTLE FRONT

His Destination is Problematical, One Report Saying He Will Take a Staff Position, Another That He is to Bring Home Body of Lord Roberts—Situation In Cracow Is An Enigma, No One Knowing for Sure What Russians Are Doing—Battle of Flanders a Month Old.

(ASSOCIATED PRESS TELEGRAM) London, Nov. 17.—Germany's remarkably persistent offensive in blizzard-swept Flanders in the west, and the stability of her hasty defense along her eastern frontier, were issues the outcome of which still was undecided today in the great European war.

In Flanders the allied line refused to yield while in the east the Russians continue to push forward. The battle line in France seems for the time being forgotten and the actions there probably will continue to be of a sporadic nature until the allies in Flanders prove conclusively that they cannot be battered in, or until the Germans by some mighty effort prove that they can.

A month of futile fighting entailing losses, the extent of which perhaps never will be fully known, has not convinced the German leaders that the French coast towns are unattainable; and while snow and rain and wind and cold have, during the past few days, so tired the troops as markedly to reduce their fighting capacity, there is nothing to show that the invaders will not try again.

How valiantly the Germans have been meeting death in what to date has been a hopeless task, is recounted by the British army's official eye witness at the front, Col. Swinton, who, describing the recent fighting around Ypres, said: "Their dogged perseverance claim our whole-hearted admiration." This tribute was not qualified as heretofore, by the query whether discipline or sheer bravery prompted the men to die, for the troops referred to were the guard corps, the pick of the German army which has according to Colonel Swinton, "retained the contempt for death" which it showed in the Franco-Prussian war. Reports that Cracow was in flames, after a Russian onslaught, that the

population of both East Prussia and Silesia was fleeing, and that the Serbians had been driven further into their own country by the Austrians, figured in the dispatches received in London today from the east, and while really what happened at Cracow is not known here, the trend of the news would seem to indicate that the Germans are for the moment, at the bottom.

Berlin is interpreting the retreat of the German forces from Warsaw as a strategic masterpiece, much the same as the allied governments hailed General Joffre's retreat in the early stages of the German invasion of France, but the German people, according to travelers reaching here, are expressing widespread chagrin at the German retreat.

It will be recalled that similar criticism was voiced when the French and English armies continued to fall back. That this was strategically a probable move, subsequently was proven, and, according to those who recently have been at the German capital the German army in the east must similarly justify its action if its retreat from Warsaw is not to go down in history as a defeat.

Contrary to expectations, the coming of winter seems to have had more effect on the operations on the western battle front than in the east. Here the Germans are making desperate efforts to divert the Russians from East Prussia by resuming vigorous offensives at two points near the center of this long frontier line.

Berlin experts, judging from the reports reaching London, have been discussing the German retreat from Warsaw with great candor. They declare they are as proud of the skill with which this movement was accomplished as are the English of their retirement after the battle of Mons.

(Continued on Page 10, Col. 5.)

The Dardanelles, the Sea of Marmora, and the Bosphorus will be the scene of mighty naval battles between the fortifications of the Turks and the fleets of the allies. For some time the British and French fleets have bombarded the fortifications at the Dardanelles, but so far there has been no result. It is not known if battleships with heavy guns have been brought to the scene. The walls of Constantinople and the forts to protect that city from the Russian battleships in the Black Sea are not sufficient, it is believed, to withstand a heavy attack. If the allied fleets go through the Dardanelles and the Sea of Marmora it is believed Constantinople will fall.

## Graphic Details of Operations at the Front Up to Nov. 13, Given Officially By British War Office

(ASSOCIATED PRESS TELEGRAM) London, Nov. 17.—Col. E. D. Swinton, the official observer at the British headquarters, gives today a further chapter in his narrative of operations at the front, bringing up his account to November 13. His latest report describes the fierce attack of the Prussian guards on the British lines in the neighborhood of Ypres. Col. Swinton's report, issued through the official press bureau follows:

"The diminution in the force of the German rush to the west has not lasted long. The section of the front to the north of our forces was the first to meet the recrudescence of violence, in the shape of an attack in the neighborhood of Dixmude and Bischoote.

"Our turn came next. After eight days of comparative relaxation we were under constant pressure from Tuesday, November 3 to Tuesday the 10th. The next day saw a repetition of the great attempt of the Germans to break through our lines to the French coast.

"What was realized might happen, did happen. In spite of the immense losses suffered by the enemy during the five day attack against Ypres, which lasted from October 29 to the second of this month, the cessation of their more violent efforts on the latter day did not signalize the abandonment of the whole project, but merely the temporary relinquishment of the main offensive until fresh troops had been massed to carry on what was proving to be a costly and difficult problem.

Meanwhile the interval was employed in endeavoring to wear out the allies by repeated local attacks of varying force and to shatter them by a prolonged and concentrated bombardment. By the 11th, therefore, it seems that they considered they had attained both objects for on that day they recommenced the desperate battle for the possession of Ypres and its neighborhood.

"Though the struggle has not yet come to an end, this much can be said: 'The Germans have gained some ground but they have not captured Ypres.'

"In repulsing the enemy so far we have suffered heavy casualties but battles of this fierce and prolonged nature cannot be but costly to both sides. We have the satisfaction of knowing that we have felled the enemy in what appears to be at present his main object in the western theatre of operations and have inflicted immensely greater losses on him than those we have suffered ourselves.

In Case of Passage of Boy Who in Claimed as a Son by Two Women.

(ASSOCIATED PRESS TELEGRAM) Cincinnati, Nov. 17.—Mrs. Plymouth Weeks, accompanied by Louis Kraft, Jr., for whom a habeas corpus writ was issued last week at the instance of Mrs. Dora Haus Guen, who claims the Kraft boy as her child and not the son of the late Louis Kraft, Republican politician and Mrs. Weeks, appeared in Judge Gorman's court here today and answered the summons.

Mrs. Guen, who was only married yesterday to Guen, likewise, was on hand and the case promises sensational developments. Kraft in his will recognized the boy as his son while Mrs. Weeks claims the boy as her son by Kraft. Mrs. Guen says that the child was taken from her at birth, twelve years ago and given to Mrs. Weeks who made Kraft believe it was his child.

Immediately after the case was called it was continued until December 1. This was at the suggestion of attorney for both Mrs. Weeks and Mrs. Guen.

### Most Serious Effects of War On American Business About Over, In Opinion of Officials

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 17.—Officials of the various government departments which touch the country's business activities feel confident that the most serious effects of the European war on American business have passed.

The restoration of the credit balance with Europe has greatly eased the situation, the increasing demand from Europe for American food supplies and also to the sudden development of abnormal trade in articles needed by the huge armies now in the field adding to that end.

No accurate figures of the contracts of the latter character are obtainable but orders for horses, mules army clothing, harness and the like have flooded factories and stock men in some districts. It is said that including ammunition orders, this business reached the huge total of over 200,000,000 of dollars. In several lines factories are straining to highest capacity to meet the demands.

Other factors which have aided in clearing up the situation are the opening of the federal reserve bank

system, upon which business experts look as the backbone of the country's resources, the opening of the Panama canal which has already increased freight traffic to the west coast of South America, and the entry of more than eighty foreign built ships into American registry under the emergency law passed at the last session of congress.

Of the shipping situation officials said today there was a growing scarcity of carriers for American export commerce because the build of that traffic was increasing so steadily. Freight rates have risen remarkably and it was said shipping companies were now selecting their cargoes with greatest care avoiding all articles of even a semi-contraband nature. High shipments of grain are awaiting transportation at many ports. It appears probable that this condition will result in renewed activity in behalf of the administration federal merchant marine bill when congress reconvenes, although the new completion of the house representative where the Democrats control by a narrow margin makes the result doubtful.

A WARNING TO MANY

Some Interesting Facts About Kidney Trouble

Few people realize to what extent their health depends upon the condition of the kidneys. The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength. When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's disease, which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in 1913. In the state of New York alone. Therefore, it behooves us to pay more attention to the health of these most important organs. An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy. The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy. If you feel that your kidneys require attention and wish a sample bottle, write to Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper, and we will send you a sample bottle. Swamp-Root is sold by every druggist in bottles of two sizes—50c and \$1.00.

THE GUARD

(Continued from Page 1.) trenches. Toward 1 p. m. the cannonading slackened and three dense columns of German infantry opened fire on the trenches. One column threatened to turn the Belgians, who were overpowered by numbers retired on the outskirts of the city. They were followed by Senegalese who thought that an order for a general retreat had been given. This movement uncovered the bluejackets who, however, continued to hold their ground. While part of the enemy advanced on Dixmude by the Essen and Keyen roads left open to them, the rest came at the doublequick for the sailors. Faced by the Prussian guard they were in danger of being surrounded. Undaunted, however, they dashed with the bayonet upon the Germans but were overwhelmed by numbers and beaten back to the trenches. Asked to surrender they replied in the words credited to General Crambronne at Waterloo, when in similar circumstances he said: "The guard dies but never surrenders." For several hours they held off the Germans who were four times as numerous, charging their ranks every time they came too near. Toward evening they were obliged to retire since their only means of retreat, the bridge connecting the city with the country was about destroyed. They crossed the bridge under an avalanche of bullets with such magnificent heroism that the Prussian officers afterwards freely expressed their admiration. The fighting was resumed with terrific violence in the streets, the bluejackets defending each heap of rubbish that had been a house, but finally retreating across the Yser.

ACCOUNT BEING KEPT BY THE FRENCH OF DAMAGE INFLECTED BY GERMANS.

And the Indemnity Assessed if Allies Succeed Will be Hundreds of Millions.

(ASSOCIATED PRESS TELEGRAM) St. Die, Department of Vosges, Nov. 17.—Via Paris.—The French government is taking careful count of the damage done by the German invaders to French property and of alleged offenses on the part of the enemy deemed to be in contravention of the Hague treaty defining the rules of war. Various members of the cabinet including premier Viviani, minister of justice Viviani, Minister of War, Millerand and Minister of Finance Ribot, have visited towns and villages in the territories evacuated by the Germans and have made first hand inquiries along these lines. President Poincare, Gabriel Hanotaux, a former cabinet officer and deputy Maurice Barres, have done the same thing and they are all convinced that an enormous amount of property has been destroyed, the obliteration of which served no military purpose. Armand Mollard, of the French foreign office is chairman of a commission now taking testimony in the St. Die region as to certain alleged offenses on the part of the invaders, as well as the identity of the individuals concerned. The property losses undoubtedly will run into hundreds of millions of francs.

"Shore Acres" At the Orpheum Begins Tonight

Manager Seibanner has secured for tonight and Wednesday matinee and night the photo-play of James A. Hegne's great masterpiece, "Shore Acres." This beautiful play needs no comment, nor description to Newark playgoers. It is one of the few dramas that will live in memory as a really great production of the American stage. The piece has appeared in Newark years ago, and those who saw it then will gladly avail themselves of the opportunity of seeing its adaptation to the photo-film, while those who have not seen the original production have heard its name mentioned whenever a discussion of great plays was held. No American critic ever named six great dramatic successes of the past 27 years and omitted the name of "Shore Acres." The exhibition rights are controlled exclusively by the Alco Film corporation, which furnishes the best in the moving pictures to the Orpheum. The story is a beautiful one of true, honest New England home folks, with a sweet and interesting romance woven into the action, that keeps tense the true heart interest of the observer, who is also overjoyed at the happy ending of the story portrayed by the characters, who become real personalities. The cast is as follows:

Nat. ....	Chas. A. Stevenson
Martin.....	Wm. Riley Hatch
Helen.....	Violet Horner
Sam.....	Conway Tearle
Blake.....	E. J. Connelly
Capt. Ben.....	Harry Knowles
Ann.....	Gladys Fairbanks

Granville

(Special to The Advocate) Granville, Nov. 17.—A good deal of interest is manifest in the tour of the Travelers' club to the Island possessions of the United States, and thus far there has been very little disarrangement in the schedule as planned by Mrs. A. M. Brumback, Mrs. Irving Kull, Mrs. K. S. Hines and Mrs. W. E. Clemens. Yesterday afternoon the club was at Tutuila, with Mrs. Grislinger in charge of "Current Events." She dealt with conditions brought on by the European war, especially the need of relief to the suffering Belgians. Mrs. J. C. Malone had studied the matter of "Our Coal Stations" and her paper was full of interesting information not only concerning the stations themselves but also the manner of obtaining the coal. Mrs. Brumback's topic, "John Paton, Apostle to the Island," was delivered off hand, and her talk was a most delightful history of the life of the Scot, who devoted himself to the work of redeeming the inhabitants of the Hebrides from heathenism and cannibalism. Mrs. Brumback is one of the most interesting speakers in the club. Next Monday afternoon will be observed as Thanksgiving "home-coming" and the meeting will be in charge of the social committee, Mrs. Lillie Prouty, Mrs. Fred Buxton, Mrs. Clarence Coons, and Mrs. J. E. Cochran. The condition of Deacon Palmerton, who suffered a stroke of paralysis on Saturday, remains extremely critical. Miss Dorothy Swartz went to Columbia today where she will be the guest of Miss Nellie Walcott for two or three days. Mr. Graham Beckel of Washington, C. H., was a Granville visitor today, calling on his Beta brothers. Mrs. Jay Robert Brown, who has spent a week at the home of her parents, Rev. and Mrs. T. G. Field, returned to her home in Toledo yesterday. Miss Lydia Boswell, who has been visiting her sister, Mrs. C. M. Eader at Monroeville, has returned to her home on Broadway. Mrs. Eader will arrive later. Mrs. R. S. Edwards, (Helen Case, '05) is the guest at luncheon today of Mrs. Frank Webb in Newark. John Swartz motored to Washington, C. H., Saturday, returning yesterday. The King's Daughters met at the home of Miss May Stark last evening to engage in work for the Christmas bazaar. The only program was the devotional exercise. During the evening delicious refreshments were served by the hostess. Women are now admitted to the schools of pedagogy, medicine and dentistry at the University of Pennsylvania. **INSANITY**

WILL PROBABLY BE THE DEFENSE OF YOUNGSTOWN WOMAN TO MURDER CHARGE.

Prospective Jurors Excused Because They Thought Insanity Would be No Excuse.

(ASSOCIATED PRESS TELEGRAM) Youngstown, O., Nov. 17.—Because prospective jurors who said they objected to accepting insanity as a defense were excused, insanity was expected to be the defense of Mrs. Emma Mackey, alias Emma Dagberry, whose trial for first degree murder in connection with the death of Alfred Dello July 5 last, was begun here today. It is expected the jury box will be filled before tonight. Dello's death, it is alleged, was caused by drinking whisky which contained poison. The poison, it is further alleged was placed in the whisky for the purpose of killing Samuel Orwig, an uncle of Mrs. Mackey whose insurance was payable to her. According to the state, Orwig was given the whisky but after he tasted it he threw the bottle away. Dello then recovered the bottle and swallowed its contents, dying the next day. Orwig, it is claimed, was ill in hospital for several weeks as a result of tasting the whisky. Indicted jointly with Mrs. Mackey is her brother, James Snyder, who later will be tried for murder in connection with Dello's death.

**Turks Checked Russ' Advance; Heavy Losses**

(ASSOCIATED PRESS TELEGRAM) Petrograd, Nov. 17.—The general staff of the Caucasian army has issued a communication confirming the report from Turkish sources that the Russians had received a check near Erzerum. It says: "The march of our advance guard in the direction of Erzerum has ended. This march was dictated not by conditions of war but only to fulfill the task imposed on our advance guard." The communication tells of a number of Russian successes on the march in Turkish Armenia and declares that the Turkish offensive against the Russian force on the route along the coast has failed. The Turks in this movement, it is declared, met with serious losses and their reserves were annihilated.

## Foot and Mouth Disease.

Foot and mouth disease, or aphthous fever, has visited the United States now six times, the first outbreak having occurred in 1870, says the Columbus Dispatch. At all the recent outbreaks, the disease has come into the country by a new channel. The infection in 1908 was imported in smallpox virus, while that of the present year appears to have been brought in with some material in tanning hides, a hitherto unsuspected danger point. As they have appeared, all of these avenues of attack have been protected by the government, but, if one may judge the future by the past, not all of them have yet been found.

The spread of the disease, this year, has been particularly rapid because the infection early reached the Chicago stock yards, the greatest of all distributing points for cattle and hogs. Being of a highly contagious character, the disease was carried far before the necessary quarantine could be established. The virus of the disease is thrown off in the discharges from the infected animal's mouth and from sores on the feet and may be carried long distances by animals or men, even though they are themselves immune. The miasma is not necessarily fatal to the animal, but it renders dairy cows useless for a time and causes a loss of flesh in meat-producing animals. The greatest loss, doubtless, is in the necessary quarantine restrictions which seriously interfere with the traffic of livestock and in certain farm products like hay and straw. The efforts to stamp out the disease have always succeeded, but they have been costly.

## Abating Child Labor.

The National Child Labor Committee issues a report of progress made within the past decade which shows a remarkable achievement in abating the evils of child labor. The Pittsburgh Dispatch points out the fact that ten years ago but 13 States had a straight 14 years age limit for all factory work, and today 36 States have it. Only one State then had an eight hour day for older children, but now 18 have it. Night work for children was prohibited in five States

1804—Robert Charles Winthrop, statesman and a colleague of Webster, died; born 1809.  
1913—Steam tug bearing an official party passed through the Panama canal from ocean to ocean.

## ASTRONOMICAL EVENTS.

Evening stars: Jupiter, Venus, Mars. Morning stars: Saturn, Mercury. The twin star of constellation Gemini, above the horizon in the northeast, is Castor. It is receding from the earth at the rate of twenty-six miles a second. Pollux, twin of Castor, is approaching at about the same speed.

## Interest In Athletics.

They call America a country of dollar chasers. Foreigners always think of us as a set of money grubbers with our eyes too firmly fixed on the main chance to feel the thrill of athletics.

Such an event as the world's series ball games shows that the American people are a nation of good sports. There is scarcely any other place in the world where such crowds of people can be collected to see an athletic contest. England turns out in throngs to see football and cricket, but people do not hang around the bulletin boards and telegraph offices as they do in this country.

The competitive spirit is deep in the heart of the American. He likes to struggle and strive for success in some test of skill. If he hasn't time or talent to acquire that skill himself, he gets pleasure from seeing some one else compete. All which has wonderful value as a popular diversion. With a newspaper story of a world's series ball game, the troubles of the day are forgotten, and the thrill of the great arena spreads out to the loneliest hamlet.

Complete unofficial returns in Oregon indicate that the bill to abolish capital punishment in that state carried by a vote of 100,036 to 99,078. The proposition was defeated in Ohio two years ago.

For some unknown reason the people of South America still refuse to walk up to the counter and buy the goods we pick out for them to use.

Among the most successful writers of fiction this fall are the fellows who are getting out the official war bulletins.

## Spirit of the Press

### Secret Diplomacy.

Now it is said to have been a secret treaty with Germany that pulled Turkey into the war. She didn't want to fight, but she had to. If we may believe them all, there is not a nation at war that really wanted to fight, and yet here they are producing the bloodiest war in history. Secret diplomacy must go.—Columbus Dispatch.

### Dry and Suffrage States.

There are now 14 states "dry" by constitutional amendment or legislative act, the number having been slightly increased at the recent election. There are 11 states in which women have full suffrage, two having been added on Nov. 3. The dry states are Arizona, Colorado, Georgia, Kansas, Mississippi, Maine, North Carolina, Oregon, Tennessee, Washington, West Virginia, North Dakota, Oklahoma and Virginia. The woman suffrage states are Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, Oregon, Utah, Washington and Wyoming. Five states, Arizona, Colorado, Kansas, Oregon and Washington, have both prohibition and woman suffrage. Nine states, Georgia, Mississippi, Maine, North Carolina, Tennessee, West Virginia, North Dakota, Oklahoma and West Virginia, have prohibition without woman suffrage, and six states, California, Idaho, Montana, Nevada, Utah and Wyoming, have woman suffrage without prohibition. A considerable number of states also have limited suffrage for women and several have extensive dry areas due to local option and other restrictive legislation.—Rochester Post Express.

### A Great Soldier's Death.

The death of Field Marshal Lord Roberts, although he was at the advanced age of 83, came unexpectedly. He had left England but a day or two before to inspect the Indian troops and while on the line contracted a chill which resulted in pneumonia and ended his life. No career more remarkably united the past with the present than that of Lord Roberts. The stretch of time which his military service covers is sufficiently illustrated by the fact that while he entered it in 1851, he

"These floors I have to sweep and swab," the janitor exclaimed; "it is indeed a beastly job, of which I am ashamed. I was designed for better things and higher. Heaven knows; I should be fiddling with the strings of lyres and things like those. I cannot do such work with zest, it's not my proper sphere; I'm sick of it, and I'll be blest if I shall tarry here." Then came the boss, who seemed to be depressed and sad and tired, and to the janitor said he, "Go, chase yourself! You're fired! You queer me with your dismal face, your feet are always cold; a dozen fellows want the place that you so tightly hold." The janitor has time to burn, communing with his soul; and how he envies those who earn, each week, their little roll! How well he'd like to sweep and swab, and light the fires at dawn. In vain he riddles for a job—and winter's coming on. Though we must do some work we hate, let's wield a willing hand, for he's the wisest sort of skate who keeps his grousches canned. ## OHIO CITIES' GAS CO. WOULD BUY NEWARK

According to information secured here, M. M. Gillett of Smithport, Pa., formerly of Newark, has made a proposal to the owners of the Newark Natural Gas & Fuel Co. to purchase the Newark holdings of this company. It is understood that the proposition was made to the Union Natural Gas Corporation of Pittsburgh at its offices in that city.

It is also stated that Mr. Gillett is acting in behalf of the Ohio Cities' Gas Corporation, a company doing business in Columbus, Springfield and other Ohio municipalities. Benjamin G. Jones well known in Newark, is interested in the Ohio Cities' Corporation.

The Ohio Cities' corporation secures its gas supply from the Ohio Fuel Supply company and is purely a distributor of gas, securing its supply from producers.

LOGAN OFFICIAL  
CORROBORATES THE  
OFFER OF GILLETT

An Associate Press telegram to the Advocate this afternoon anent the situation as regards this city, corroborates the rumor of Colonel Gillett's activity quoting P. W. Lupter, the vice president of the Logan company. The telegram follows:

Columbus, Nov. 17.—Rumors were current today that negotiations have been under way looking to the purchase of the Newark Natural Gas company by the Ohio Cities Gas company. The Newark company is now owned by the Logan Natural Gas and Fuel company, and there has been a controversy of long standing regarding the rate charged Newark patrons.

The Newark company recently threatened to cut off the entire supply unless the city of Newark agreed to pay a higher rate. The city appealed to the state public utilities commission for relief and the case is pending.

P. W. Lupter, vice president of the Logan company, said today that Melville M. Gillett, formerly of Newark, had made certain overtures for the purchase of the Newark property, but that the Logan company had not even expressed an inclination to sell.

Mr. Lupter said he did not know what interests Mr. Gillett might be representing.

Sheriff-Elect  
Has Announced  
His Deputies

Sheriff-elect Charles Swank announced late Tuesday that Earl C. Legge would be appointed deputy sheriff when Mr. Swank assumes his duties, January 4. He also announced that Frank O. Brown will be appointed turnkey at the county jail.

Mr. Legge is well-known to Newark people, having been until recently manager of the Freedom Oil company's plant here. Mr. Brown is a well-known tailor, members of the firm of Feeney & Brown, merchant tailors.

OWENS BOTTLE CO.'S  
OFFICIALS IN A  
SPECIAL TRAIN

Arrive in Newark this Afternoon to inspect the Local Plant—E. H. Everett in Party.

A special train carrying officials of the Owens Bottle Machine Co. of Toledo O., arrived in the city Tuesday afternoon at 2 o'clock over the Baltimore & Ohio railway company and were met at the station by local officials of the American Bottle Company and taken to that plant in autos.

At the latter place the annual directors' meeting is being held. Mr. E. H. Everett is a lately arrived from Switzerland, and Tuesday noon a sumptuous luncheon was served and in the evening a splendid dinner will be served.

Officials of both the American Bottle Company and the Owens Company are on their way out of glass machines. The officials and left and will return to Parkersburg, Pa., by midnight, going to Huntington, W. Va., to be visited and inspected at the company's plant in various parts of the country.

The condition of the glass machine is so badly burning, it is about the best it could be.

toe. Quit punishing your feet by using toe-cutting knives and ointments. To use knives, files, scissors and razors, slicing and hacking at a corn, only make it grow faster and bigger. It also brings danger of bleeding and blood poison. The new way, the principle never known before in corn-history, is "GETS-IT." It's a liquid—2 drops on a corn does the work. Pain goes, the corn begins to shrivel and out it comes! You apply it in two seconds. Nothing to stick, nothing to hurt, and it never fails. Try "GETS-IT" tonight on corns, callouses, warts or bunions. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

## HOME RULE

AMENDMENT'S "SURPRISING EFFECTS" WILL BE SHOWN BY DRYS.

Wayne B. Wheeler Says Fraud Also Will be Developed—Hearing Within Week.

(ASSOCIATED PRESS TELEGRAM)  
Columbus, Nov. 17.—The Anti-Saloon League's mandamus suit seeking to compel Secretary of State Graves to order a recount of ballots on the home rule and prohibition amendments in the four largest counties of the state, probably will be heard by the supreme court within the next week, it was said here today. The suit was filed yesterday along with another in the Franklin county common pleas court intended to secure an interpretation of the home rule amendment.

P. E. Dempsey, J. I. Bouger and Frank Davis Jr., special counsel in the attorney general's department were working on the defense of secretary Graves today.

Wayne B. Wheeler, superintendent of the Anti-Saloon League, expressed confidence that the suits entered yesterday will show fraud in the elections and also show "surprising effect" of the home rule amendment.

IN REMEMBRANCE.

In memory of our dear father, A. C. Warren, who died Nov. 17, 1910. Four long years have passed away since we laid our dear father to rest. Friends may think the wound is healed.

## Heroism of Women During The Great War

Speaking of women's heroism in the war Ernest Ludwig, consul for Austria-Hungary, says:

In Klenak a place in Symria, Southern Hungary which is on the river Save and practically across Sabacz in Serbia, life during the war is not altogether a sinure. The place was constantly in the fire of the enemy's artillery, the explosion of shells a very common daily occurrence. Yet during over a month from the 16th of August up to the 25th of September three telegraph and postofficers held out in their place of duty and two of them were women. Mr. Rudolph Bier was in charge of the office, Miss Dada Gregurilovics and Miss Eva Baracs were his assistants. The latter was quite young, in fact, she had hardly left school. Before the 16th of August four more men were also there as assistants. They had been sent there a few weeks ago because the pressure of work was too great. On the 16th of August the regular bombardment of Klenak began and these four men thought that it was time to leave — their appointment being of a temporary nature only. From the 16th of August Mr. Bier and his two assistants were in constant danger of life, but held out pluckily until the last. They performed their duties and did their work in a conscientious and painstaking way although it very often required superhuman efforts on their part. Their relief came by accident. After the occupation of Sabacz the military commander of the Austro-Hungarian troops inquired whether a special message could be transmitted by long distance telephone with Klenak as sections of the line in that direction had been out of order for a while. Mr. Bier and his plucky assistants succeeded in getting the message through the wire, but they made a report simultaneously that conditions in Klenak had reached the limit of human endurance. The Austro-Hungarian government plans a special reward for these three officers who gave such a splendid exhibition of courage and devotion.

Another instance of undaunted courage became known in Bazias, Southern Hungary. This is a little city on the Serbian frontier which was for a long time almost constantly under a bombardment of Serbian artillery. When conditions became insufferable all of the telegraph and post officers and the population were compelled to withdraw. Miss Hena Palinkas however volunteered to hold out in her station and thanks to her courage communication with Bazias was not interrupted. Miss Palinkas continued to transmit her reports over the long distance phone or the telegraph lines amidst of exploding shells and fire. She is sure to receive high reward from the government. If the three named ladies the first named was a Croatian, the two other Hungarians.

## FRENCHMAN MUST DIE FOR TREASON AT REIMS BATTLE

(ASSOCIATED PRESS TELEGRAM)  
Chalons-sur-Marne, via Paris, Nov. 17.—A Frenchman, Alfred Durot by name, has been sentenced to death by courtmartial for treason.

During the battle which raged around Reims on September 9 the French artillery operating near the village of Puiseulx, was subjected to a terrific bombardment by the Germans, no matter how often they changed their position. A careful watch was kept and it was discovered that a mile in front of the French batteries a shepherd was feeding his flock among which were five snow white goats.

The shepherd was arrested and inquiries showed that during the German occupation of Puiseulx he was the only inhabitant who had not been molested, and that he was given the white goats whose presence was to signal the position of the French guns. Durot at his trial, admitted his guilt.

## POLISH ARISTOCRAT ARRESTED FOR TREASON.

(ASSOCIATED PRESS TELEGRAM)  
Venice, via Paris, Nov. 17.—Count Alexander Skarbko, a Polish deputy, vice president of the Polish club and one of the most prominent members of the Polish party, was arrested at Neumarkt Galicia on November 5, charged with high treason.

## ITCHED SO, HE TORE HIS FLESH RESINOL CURED

Washington, D. C., Dec. 3, 1913: "All over my body were small pimples which itched me so that I could just grab my flesh and tear it apart. For three weeks I could not sleep at night until I was simply exhausted. I tried most everything that was supposed to give relief, and I can truthfully say that not until I used Resinol Soap and Resinol Ointment did I begin to feel like the man I was. After only two applications there were no more symptoms of my ailment." (Signed) A. Jackson, care of Water Registrar's Office, District Building.

Resinol Ointment (50c. and \$1.00), and Resinol Soap (25c.), stop itching instantly and speedily heal eczema, and other skin humors, pimples, dandruff, scabs, burns and piles. Sold by every druggist. Don't be fooled by "substitutes" for Resinol offered by a few unscrupulous dealers. For free trial, write to Dept. KK, Resinol, Baltimore.

## Rheuma Endorsed

Recognized as a Standard Remedy for All Forms of Rheumatism.

Restores Kidneys, Blood, Bowels and Skin to Healthy Condition.

T. J. Evans or any druggist who has sold Rheuma for years will tell you that this great remedy for rheumatism has no superior. His knowledge is gained from testimony of customers to whom he has sold Rheuma. If you suffer from some form of the disease try a bottle. It costs only 50 cents, but its use will convince you that it will quickly and permanently benefit you.

Rheuma starts with the first dose to clean your system of all poisons; builds up your shattered strength; infuses fresh blood into your veins, and quickly restores the kidneys, bowels, blood and skin to healthy, normal condition. It rapidly brings the swollen joints down to normal, for the uric acid will have been driven out.

That is the Rheuma way of treating rheumatism. Your money returned if it fails.

## GERMANS RENEW EFFORT TO CROSS YSER AT NIEUPORT

(ASSOCIATED PRESS TELEGRAM)  
Amsterdam, via London, Nov. 17.—The Telegraaf's correspondent at Stuis, Netherlands, states that artillery fire was again audible yesterday and that the Germans are renewing their efforts to cross the Yser at Nieuport. The weather is improving.

Diknude, including the villages in its environs, has been entirely destroyed. On Sunday the windows at Stuis were shaken by explosions beyond the border, where, it was reported yesterday, bridges are again being blown up.

Captain Nyssen, a famous Belgian horseman, who with 50 lancers covered the retreat of the Belgian army and stood off the attack of a big force of Germans until he was terribly wounded, is recovering in Dutch territory where he was carried by his men.

## CLEARING MEUSE FOR NAVIGATION

(ASSOCIATED PRESS TELEGRAM)  
London, Nov. 17.—A dispatch to Reuters' Telegram company from Brussels via Amsterdam states that the governor of Namur province announces that the clearing work of the Meuse has so far progressed that the river, from Rhine to Namur, will be navigable next Sunday.

## A FACT IN PHYSICS IS SAVING LIVES

We offer to the medical profession and humanity this new and profound FACT IN PHYSICS—influence the renal tract with an agent that opposes renal and hepatic degeneration, and urinalyses will, in many cases, within twenty days begin to show diminishing albumenuria in Bright's Disease and decreasing Glycosuria in Diabetes. Simple as it is, this means that these diseases are now being cured.

The presence of albumen or sugar (as the case may be) is a PHYSICAL FACT and its disappearance is a FACT IN PHYSICS.

Who is there big enough to question the reality of a FACT IN PHYSICS that is being daily demonstrated by the weights and measures of analytical chemistry?

Fulton's Renal Compound is the agent used in Bright's Disease and Fulton's Diabetic Compound in Diabetes.

They do not conflict with the usual treatment—can simply be added for the new purpose above. There then begins to be hope in these diseases heretofore supposed incurable. Recoveries have been reported in several thousand cases.

F. D. Hall is local agent. Ask for pamphlet or write John J. Fulton Co., San Francisco.

## State News

J. W. Lamont, 31, escaped inmate of the Columbus state hospital, is in trouble at Munich, Ind., where he was posing as an expert cattle disease inspector.

Henry C. Miller, 30, who gave up an opportunity to attend West Point that his boyhood friend, Phil Sheridan, the alternate, might get the military training to which he aspired, is dead at Columbus.

Glenna Fox, 37, committed suicide at Dayton because her sister did not boil the coffee quick enough.

Alex Lewis was run over and killed by a train near Lawrence. He went to sleep on the train.

The Jefferson county grand jury at Steubenville returned thirty indictments. Marshal Batach was freed of a charge of manslaughter in the killing of John Harbin with a club.

Robert Carrigan, 62 years old, for 30 years a resident of Cleveland, is dead.

Mrs. Sarah Brandon, 113 years old, mother of 23 children, 22 of whom were boys, is dead. Fourteen sons served in the Union army and two in the Confederate army in the civil war.

Hamilton county hunters ignored the state order prohibiting hunting. The sheriff and prosecutor are investigating.

A cat on the farm of J. S. Kennage near Urbana is said to have the foot and mouth disease. Kennage's stock is also infected.

An automobile fleet at Coshocton has been arranged for by the sheriff because reports of reaching his office that hunters are violating the "no hunting" order.

## Consul Ludwig Comments On Churchill Talk

Ernest Ludwig, consul for Austria-Hungary, in commenting upon Winston Churchill's speech, said to the Advocate today:

"The British Lord of Admiralty Winston Churchill made a speech in the London Opera, September 11, which certainly deserves and commands wide spread attention. He emphasized that England wanted war in 1909, but Russia at that time was not yet strong enough to satisfy England's desire of war.

"This is the gist of his speech: England is facing a long and difficult war, which may bring disappointments. The one sure way for England to make an end to this war, would be to throw one million men over to the Continent. In the first few weeks of the war England had practically destroyed Germany's foreign trade, while British ships continued to support British commerce which is the foundation of the country's power. Great Britain can transport large masses of troops to the theatres of war from all parts of the Universe. She can do so with comparative ease and running no particular risk in doing so. The whole North-sea has been searched without discovering the German fleet. Within the next twelve months the number of the big battle ships to be built in England will exceed those to be built in Germany in the same period twice and the number of cruisers will be three or four times as big. Just at present England needs a large army, which would force a final solution of this terrible struggle under the protection of the fleet.

"If the people of England only so desired the army already landed in France could be increased to one quarter of a million men, later on towards New Year to one half of a million and in Spring 1915 the full strength of 25 army corps would be obtained. No compromise and no armistices are possible until then. If one had gone so far, he should keep on to the bitter end without a whimper. This is the same great war, which should have come to an issue in 1909, had not Russian humbled herself to the extent of yielding to German threats.

"This language is pretty strong and goes far to show who really is responsible for militarism in Europe and who should bear the brunt of responsibility for the outbreak of this bloody war."

## SWISS HAVE NO AGREEMENT WITH AUSTRO-GERMANS

(ASSOCIATED PRESS TELEGRAM)  
Berne, via Paris, Nov. 17.—Repeated statements appearing in the Italian press that Switzerland had entered into a secret convention with Austria and Germany, binding herself to support with her army an invasion of northern Italy, and to permit an Austro-German force to pass through Switzerland in the event of Italy abandoning her neutrality in favor of the triple entente, has brought forth a strong protest from the Swiss government. The existence of any such convention is denied and it is declared that the reports are an insult to Switzerland and her army.

## AUSTRIANS WIN OVER SERBIANS, FORMERS' REPORT

(ASSOCIATED PRESS TELEGRAM)  
London, Nov. 17.—A dispatch from Vienna via Amsterdam to Reuters' Telegram company, contains an official army order issued by Field Marshal Oskar Potiorek, commanding the Austrian troops operating against the Serbians. The order reads:

"After nine days severe fighting against an obstinate and numerically superior enemy the brave troops of the Fifth and Sixth corps have reached Kulmbara and forced the enemy to flight. Over 8,000 prisoners, 12 cannon, 31 machine guns and numerous war material were captured."

It is said that about 1,400 earth tremors were felt in Japan last year.

## Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—beal the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2 1/2 ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 34 cents. No better to prepare. Full directions with Pinex.

It beals the inflamed membranes gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent hoarse cough.

Pinex is a highly concentrated compound of Natural pine extract, rich in quinine, and is famous all the world over for its healing effect on the membranes. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

## WHAT IS YOUR OPINION

Of the perfect all-rail stove? Wouldn't it be one that burnt hard coal, soft coal, coke or wood economically and successfully, without any change in its construction? Wouldn't it be one that would be tight—hold fire forty-eight hours? What more could you ask? Almost any kind of stove heats, if you burn enough fuel, but fuel costs money. Exhaustive search and comparison fixed our choice on the RUND-OAK-FOLKS, manufacturers of the Genuine Round Oak stoves, and on their "DOUBLE BURNER," as representatives of our ideal in stove construction. Here is a stove manufacturer that knows, and a stove that gets results. Burns, most successfully and with greater economy, all fuels. Is air-and-gas-tight for life; perfect in control; ideal floor warmer; handsome, symmetrical, pleasing to the eye, and, in our judgement, so nearly perfect that it has our unqualified recommendation. It's a proved success. Your personal investigation is urged. Have one set up in your home this season.

## ONE NEW CASE DEVELOPS IN LICKING CO.

**INTERSTATE COMMERCE COMMISSION WILL ASSIST IN STOPPING CATTLE PLAGUE.**

**Federal Inspectors Busy—Pittsburgh Yards Reopened After Thorough Fumigation.**

One new case of the foot-and-mouth disease has developed in this county, in the vicinity of Buckeye Lake. State inspectors are on the farm using every precaution to prevent a further spread of the disease.

A case has also been reported south of Toboso, across the Licking county line in Muskingum county. It is also under surveillance. Reports of various natures and many rumors are flying thick and fast that the disease is spreading and that several farms adjoining the corporation contain infected cattle. This is a mistake. There are four farms south of the city and two in the vicinity of Buckeye Lake that have cattle, sheep and swine that are affected, and until Tuesday these are the only cases under observation by the state and government inspectors.

Licking county farmers were greatly disappointed that they did not get to inaugurate the opening of the season, which would have been Monday, if the state-wide quarantine had not been established and an order forbidding hunting issued. It is intimated in official circles that hunting may be allowed later this winter, providing state and federal veterinary authorities succeed in stopping further spread of the animal disease.

## PENNSYLVANIA IS UNDER QUARANTINE

**(ASSOCIATED PRESS TELEGRAM)**  
Pittsburgh, Nov. 17.—The Union stockyards, which were closed here as a result of the foot-and-mouth disease epidemic among cattle, were reopened today for the receipts of live stock from unquarantined territory. The local market still remains closed, and only cattle consigned here for immediate slaughter or brought in sealed cars under government inspection and unloaded here for feeding, resting and watering, will be accepted. The state is under quarantine throughout which will prevent cattle arriving at the yards from other counties.

The quarantine in the local yards was lifted last night by the government officials after all the barns and pens had been thoroughly fumigated.

## FEDERAL GOVERNMENT LENDS ASSISTANCE

**(ASSOCIATED PRESS TELEGRAM)**  
Washington, Nov. 17.—To assist in prevention of spread of the prevalent foot-and-mouth disease the interstate commerce commission announced today it would contribute whatever it can toward affording relief at the present juncture.

Applications had been made for relief from the assessment of demurrage charges upon embargoed shipments of live stock, hay and straw, held by orders of the agricultural department. The commission's announcement says:

"Carriers are required strictly to observe their published tariff rates and regulations and may not diviate therefrom. This commission may, however, upon application, made to it permit charges in tariff upon less than the ordinary 30 days' notice. Should the carriers or any of them petition this commission to make effective upon this notice tariffs which will suspend the assessment and collection of demurrage occasioned by the order of the department of agriculture, this commission will be glad to give prompt and favorable consideration to such applications."

The state of Washington will be placed under quarantine probably today, because of the discovery of cases of the disease near Spokane. An inspector there reported that he believed the cattle had been shipped west from the Chicago stockyards.

## FIRST VIOLATION OF QUARANTINE COMES FROM CINCINNATI

**(ASSOCIATED PRESS TELEGRAM)**  
Cincinnati, Nov. 17.—A shipment by express of calves, received in this city by a local commission merchant from a village in Dearborn county, Ind., resulted today in federal agents making an investigation of the case. Inspector W. E. Chamberlain, who conducted the inquiry, said: "I found that the express company had violated the quarantine law. The states of Ohio and Indiana are under quarantine and no shipments are permitted. The commission firm admitted that they received the consignment and declared that the calves had been sold to a local butcher, and already had been slaughtered. This case will be reported to Secretary Houston of the department of agriculture. It is the first violation reported in Cincinnati."

## VIOLENCE OF CANNONADING IS RESUMED

**ACTION OF FRENCH ARTILLERY PREVENTED GERMANS STOPPING INUNDATIONS.**

**Allies Stop Two Attacks of Infantry—Official Report Issued at Paris.**

**(ASSOCIATED PRESS TELEGRAM)**  
Paris, Nov. 17.—There was given out in Paris this afternoon the following communication:

"From Neuport to Dixmude and in the region of Ypres, the cannonading has been resumed with greater violence than in the preceding days. On the canal south of Dixmude the action of our artillery checked the work that the Germans were endeavoring to carry out to keep down the inundations. The enemy was compelled to evacuate a portion of his trenches which had been filled by the waters."

"Two attacks of German infantry, one to the south of Bixchoote and the other to the south of Ypres, resulted in failure. On our side we have made progress between Bixchoote and the canal."

"Between Armentieres and Labasse there has been an artillery duel conducted with great spirit."

"On the Aisne certain German detachments which endeavored to cross the river in the vicinity of Vailly were either driven back or destroyed."

"On our positions on the right bank of the Aisne, upstream from Vailly, there has been violent cannonading. This applies also to the Reims region, and several shells have fallen on the city of Reims."

"In the Argonne there have not been any infantry engagements. We blew up with mines a certain number of German trenches. On the heights of the Meuse, to the south of Verdun, we have made advances at several points."

"In the region of St. Mihiel we have taken possession of the first houses of the village of Chauvon Court. These houses served as barracks for the St. Mihiel garrison. This village of Chauvon Court is the only point of support still held by the Germans on the left banks of the river Meuse in this locality."

"On the rest of the front there has been nothing of importance to report."

## MERCHANTS WILL BANQUET FRIDAY AT THE WARDEN

The Newark Merchant's Association is completing plans for the fall banquet of the organization. The banquet will be given on Friday evening, November 20 at the Warden Hotel, and arrangements are being made to serve 75 members of the association.

A committee went to Columbus today to extend an invitation to Mr. A. T. Seymour, president of the Columbus Chamber of Commerce to be honor guest at the meeting and deliver the address of the evening. A number of short talks have been arranged and a very pleasing menu will be served. The committee in charge of the banquet is Mr. A. S. Stephen and Mr. A. R. Lindorf.

## OHIO LADY RECOVERS AFTER YEARS OF STOMACH TORTURE

**Mrs. Nora Britton Tells of Wonderful Results From Use of Mayr's Stomach Remedy.**

Mrs. Nora Britton is well known in Caldwell, where she has lived for some time. Her many friends, who know the suffering she has endured from stomach trouble are marveling at the sudden and astonishing improvement in her condition.

Mrs. Britton credits her good fortune to a trial of Mayr's Wonderful Stomach Remedy, and describes her experience as follows:

"For four years I suffered, no one knows what. I had six doctors but received no benefit. One said it was catarrh of the stomach, another recommended an operation. I had given up all hope when I saw an advertisement of Mayr's Wonderful Stomach Remedy and decided to try it. Thank God, relief came at last. I can't say enough for it. I am recommending it to every person I

meet, suffering with this ailment." Just such letters come from all over the country, Mayr's Wonderful Stomach Remedy convinces with the first dose—no long treatment. Mrs. Britton's experience is typical. Mayr's Wonderful Stomach Remedy clears the digestive tract of mucus accretions and poisonous matter. It brings swift relief to sufferers from stomach, liver and bowel trouble. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of Mayr's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser ever sold. Mayr's Wonderful Stomach Remedy is now sold here by Frank D. Hall, H. G. Marshall.

## 31 SHOPPING DAYS 'TILL CHRISTMAS

## Cut the Cords that bind you to your kitchen

Come down tomorrow and see a graphic picture of conditions that apply in kitchens that lack Hoosier convenience. The whole story is in our window.

## The New Hoosier Cabinet

Puts your whole kitchen at fingers' ends, and cuts your work in two. We'll put one in your home tomorrow.

## For a Single Dollar

We started Monday to explain the new Hoosier Plan by which we are permitted to sell a few of these famous cabinets on surprising terms.

## Most of Them Are Already Taken

This plan differs from any other on which furniture was ever sold. Note the details:

- 1—One dollar puts any Hoosier you select in your home.
- 2—One dollar weekly does quickly pay for it.
- 3—The low cash price fixed by the factory prevails absolutely.
- 4—The sale is under direct supervision of the Hoosier Company.
- 5—When this allotment is taken, the sale closes.
- 6—If you are not delighted with your cabinet we will gladly refund your money.

When you think of the miles of steps this cabinet saves you every day, can you daily postpone looking at these cabinets until it is too late to enroll? The time is getting short. Come in tomorrow and look at these Hoosiers. You place yourself under no obligation.

**You will not be asked to buy** unless you realize yourself the need of this cabinet in your home. But if you do not enroll, remember, some other woman will enjoy the privilege that is now yours if you enroll tomorrow. Nothing you have ever seen will save you as much labor in your kitchen, if you act tomorrow.

### ELI HULL

#### WINS SUIT IN SUPREME COURT FOR MONEY HE SAYS HE LOANED IN 1873.

Case Was Remanded Back to Common Pleas Court for New Trial. Other Decisions.

(ASSOCIATED PRESS TELEGRAM) Columbus, Nov. 17.—Contract for the purchase of coal lands in 1873 was the subject of action by the supreme court today when a new trial in the Licking county common pleas court was ordered for the suit of Eli Hull against Henry O. Norris, executor of the estate of Jerome Buckingham and Frederick S. and Edwin C. Wright, children and heirs of Virgil H. Wright. Hull maintained loaned Virgil H. Wright \$3,000 in 1873, to buy coal lands in Athens county, and that Wright agreed to repay the sum with interest at the rate of 12 per cent when the lands were sold. They were never sold, but were operated under lease to another company. The money was not repaid, and Hull sued for an accounting. The common pleas court decided against Hull, and the circuit court reversed this decision.

The Cincinnati board of education will have to pay to John M. Mueller, Jr., a contractor, \$4,800 for marble shields placed on the Hughes high school building in 1908, the court decided. This settles a dispute of six years standing over payment for the contractor's work.

In giving a verdict for \$250 to Harry I. Schenck and Harry J. Williams, Dayton architects, the court held that architects are entitled to fees for planning a house even if the architect's estimate of cost, William E. Borkhoff must pay the bill.

Peter Angeloff of Toledo, will have to serve a term of five years in the penitentiary for attempted criminal assault on Dora Ston, 16-year-old Toledo girl two years ago. The supreme court affirmed the decisions of both lower courts.

The court refused a writ to compel Judge John H. Fimple of the common pleas court, Stark county, to sign a bill of exceptions to the referee's ruling in the suit of the Canton

## WITHDRAWAL

OF BOTH VILLA AND CARRANZA IS NOW CONSIDERED A PROBABILITY.

Report That Agreement Has Been Reached to Hold a Convention in Mexico City.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 17.—Dissension among members of the constitutionalist which threatens a renewal of civil strife in Mexico appeared today to have been checked. While details of the progress made by the military chieftains in their attempts at a compromise were lacking, yet administration officials, thought it not unlikely that both Carranza and Villa would retire.

Despatches from Leon Canova, special agent of the United States at Aguas Calientes, said Carranza had indicated his intention of resigning in a telegram to Eulalio Gutierrez, the new provisional president. Other reports from Mexico City state Gutierrez had notified General Obregon that he agreed to Carranza's proposal that Villa and Carranza go to Havana and that the peace convention meet in Mexico City, November 25, to select a provisional president. Obregon was said to have construed the message to indicate that Villa had agreed to the proposal, inasmuch as the fighting general publicly had placed himself under the orders of Gutierrez.

A despatch from American Consul Silliman in Mexico City said negotiations among the contending generals still were pending. While that communication was written several hours after the one sent by Canova, yet Secretary Bryan announced that it was not known whether the reports conflicted, or whether Canova had later information.

In some quarters today there was a disposition to await direct advice from Carranza before crediting the information given to Canova by the generals at the Aguas Calientes convention. Belief was expressed that American recognition of the new administration would be withheld until the Aguas Calientes convention met in Mexico City and formally ratified the selection of Gutierrez.

Mr. Silliman reported that a telegram from General Carranza to General Gonzales, which was transmitted to General Gutierrez, stating the willingness of the first chief to deliver the executive power under certain conditions also was published. Mr. Silliman's despatch made no mention of just what the conditions were.

Secretary Bryan said he had no advice from any other source to show what stipulations finally had been agreed upon, but that there had been discussion in previous despatches of the wish of Carranza that he and General Villa leave Mexico.

When the cabinet met it considered these latest phases of the situation. The feelings of officials was that an understanding had been reached which would bring peace.

In some quarters it was suggested that Carranza's conditions of retirement would not be made public and that Gutierrez actually would not be installed into office in Mexico City until both Carranza and Villa had left the country.

### U. S. WILL HOLD MEXICAN CUSTOMS

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 17.—The United States will hold the several million dollars in customs collected at Vera Cruz until a stable government is established in Mexico and will not turn it over to the French bondholders.

President Wilson said today the money would be delivered to neither faction in Mexico under present conditions and indicated that only a government recognized by the United States would receive the money. He feels that responsibility for which faction gets control of Vera Cruz after evacuation by American troops does not rest with the United States.

Mr. Wilson does not construe the message as a bid for recognition. No confirmation has been received of reports that Villa had promised to leave Mexico.

Of these 39 were purchased with "pay books" money, 11 by library association and 18 given by Cleveland public library. Gifts to the library during the month were as follows: Mr. Shade \$1.00; Mr. Fuller 20c; Mary Hentze, one year subscription to Fatherland magazine; other magazines and papers, Miss Van Buren, Miss Robbins, Mrs. Thomas, Mrs. Franklin, Mr. Gilbert, John Jones, Jay Ritter and Mr. O'Hannon. We have also added the Survey and Musician magazines to our file. New books on the war are Pan-Germanism, England and the English, the Home Irish, and Germany and the Germans. With our steady increase of new patrons, we find it hard at times to supply the demand, especially in the children's department. In making out our list of those to be remembered at Christmas, can't we, all of us, include the children's room at the library, for at least one book. The story hour, which is being conducted each Saturday morning at 10:30 by Miss MacDonough is well attended and all children up to sixth grade are cordially invited.

### ALLIES' LINE

(Continued from Page 1.) They admit also that the efforts of the Germans to emulate General "Stone-wall" Jackson's famous flanking movement, failed of success by a narrow margin, and only because the Russians were not caught napping.

The German people were promptly informed of the withdrawal of their troops from the Warsaw front, but they got only meagre news of the progress of his retreat until the retiring armies having covered something like a hundred miles were in sight of their own borders.

The Germans seem confident of a favorable outcome to their renewed offensive along the river Warta; and their ability to resume the aggressive shows strikingly the advantage which the possession of strategic railroads gives a warring power. It is the opinion of British observers that the Germans are determined to force the invaders from East Prussia, and that they are striking two blows, one from the north and the other from the northwest. In the general direction of Plock and Kutno with the object of paralyzing the Russian advance along the southern frontier of East Prussia.

Dispatches from Petrograd conveying official reports, say that the "brilliant and unexpected" seizure of Johannsburg so disconcerted the Germans that their offensive movement along the river Warta was started prematurely. Russia is reticent regarding the success of these movements, while Berlin reports them as progressing favorable.

Petrograd reports the first Russian reverse at the hands of the Turks by admitting that a superior force of heavy artillery compelled the Russian advance to halt on its march to the Des Ebouyun range of mountains, which protects the city of Erzerum in Turkish Armenia. Koprunkent, thirty miles east of Erzerum which was won by hard fighting, had to be abandoned by the Russians.

Vienna announces the continued advance of Austrian troops into the Bal-

fans, with the occupation of Valjevo after a stubborn battle.

Paris declares officially that conditions are stationary along the western battle front, but special dispatches set forth that there has been heavy fighting around Ypres, and renewed attempts by the Germans to cross the Yser between Nieuport and Ypres.

The actual situation in Cracow is becoming one of the many enigmas of the war. One report has the Russians actually investing the town, which is declared to be in flames, while several reports have reached London that the Germans have left the defense of Cracow to the Austrians, who in their turn are expected to surrender rather than have the city bombarded.

The latest reports from Petrograd, however, declare that the German forces have rejoined the Austrian garrison in the defense of the Cracow fortress, which some experts pronounce to be the key to the easiest road into the province of Silesia.

London shipping circles are somewhat worried by a report that the German converted cruiser Berlin is attempting to escape from the North Sea and make up the career of a commerce destroyer in the Atlantic, but as the Berlin is only an 18-knot boat, it is believed more likely that she is acting as a guard ship to a submarine flotilla.

The Prince of Wales is now at the front but some disagreement exists as to the probable length of his stay. One report declares that he went to escort home the body of the late Earl Roberts, while others agree that he is going out to become a member of the staff of Sir John French, commander-in-chief of the British expeditionary force. There is little apprehension as to the personal safety of the prince.

Russia has forbidden the export of metals, with certain exceptions in favor of the allies. This step is expected to increase the demand for American metals.

The agitation in the newspapers of Holland for joint intervention by the Queen of the Netherlands and the President of the United States is increasing, but it has not as yet evoked any comment here.

Italy is the latest recruit to the cam-

paigned of the American relief commission and will now actively co-operate with the commission in its work of relieving the distress in Belgium.

(ASSOCIATED PRESS TELEGRAM) London, Nov. 17.—Premier Asquith stated in the house of commons today that the British government had decided to declare the whole of the North Sea to be in the military area. All subjects of the enemy found on neutral vessels, the prime minister also said, would be liable to detention as prisoners of war.

Mr. Asquith also announced that oil and coal would be declared contraband of war.
